## Voter (Attendee) Guide

Go to <https://StrengthThroughDiversity.life/scheduled> to search or browse for a Zoom candidate conversation. Enter questions in advance or during the conversation. Voters/Attendees will not have access to their camera or microphone.

Registration is NOT required. The attendee link will have the passcode embedded.

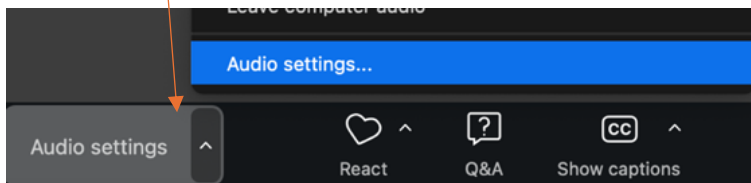

Participation in the Zoom candidate conversation is not necessary. Watch live at: <https://www.youtube.com/@KS-CandidateConversations>  
The conversation will also be archived using the above YouTube link.

Below is the task bar on the bottom of the screen.

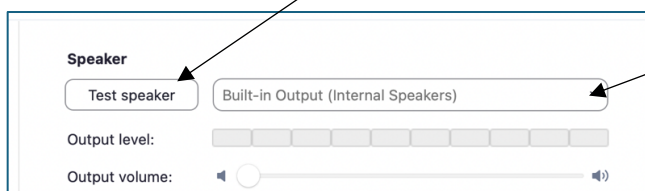

### Audio Settings

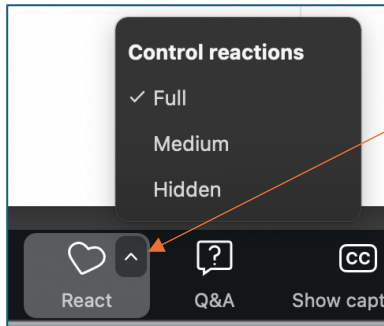

Click on the up arrow to the right of “Audio settings”.

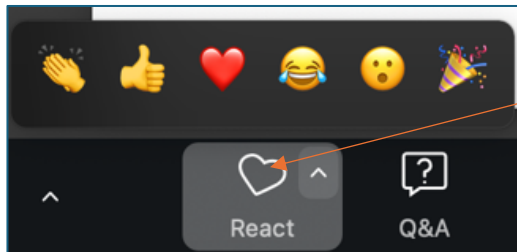

The option will appear to “Test speaker”. Choose the speaker from the drop-down menu. This is critical to hear the conversation.

## React

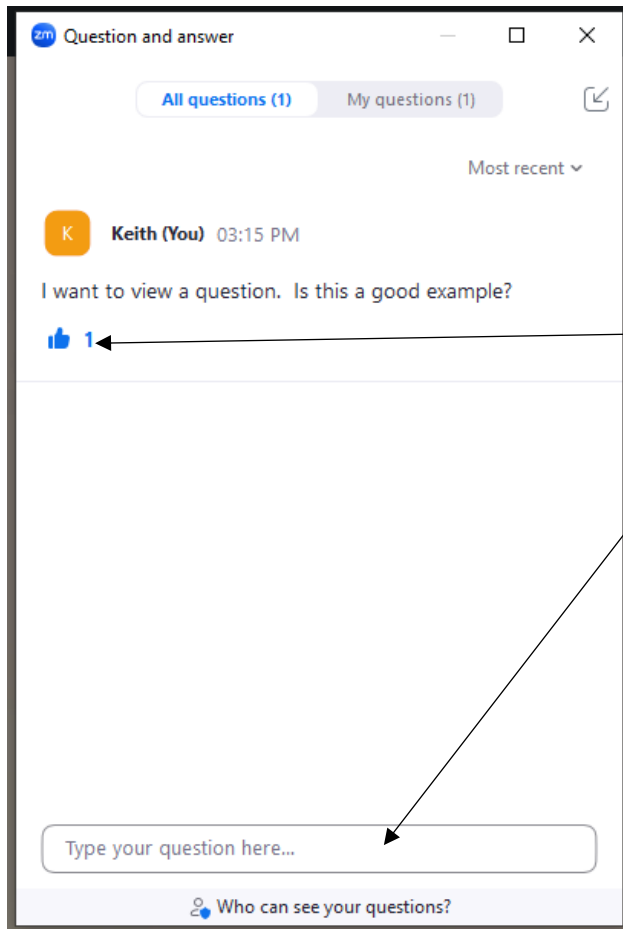

Click on the up arrow to the right of "React". Choose how you want to see the reactions of all voters. "Full" is the emojis floating from the bottom and up. "Medium" is the emojis appearing in the bottom right of the screen. "Hidden" is no emojis appearing.

Click on the "React" heart. These are the emojis you can click on anytime during the conversation.

## Submit questions for the Candidate

Next is maybe the most important. Click on the Q&A button. (May need to click "More" to find the Q&A option.) The square box with an arrow in it (upper-right) is to attach or detach the Q&A window from the main screen. New questions will appear on the bottom of the Q&A window. "Like" a question from another voter. Click on the "thumbs up" icon to "upvote". The question with the most "upvotes" will be considered by the moderator for a candidate response.
